

We help influencers deepen connections with their followers and grow their business.

CREATE YOUR BOOK CLUB TODAY

Why start an influential book club?

If you read a book with someone, you get to know them. Creative individuals rely on genuine connections with their audience. Your book club will reveal parts of you, and of your audience, that lead you closer together.

- Grow your audience through a shared love of books
- Communicate your brand through reading selections
- Build engaged community around your content
- Support your work through optional membership subscriptions with Stripe payment processing

"It only takes one person to mobilize a community and inspire change."

BOOKCLUBS PROVIDES ORGANIZATIONAL TOOLS TO SUPPORT THE CREATOR ECONOMY

Easy integration with social media

Message boards for lively discussion

Interactive polls for member engagement

Automated meeting scheduling and reminders

Your customized club page can showcase reading selections, branded material, and creative content.

An online book club offers something rare in the social media world: a chance to turn a mostly one-dimensional relationship into an authentic two-way conversation. And not just between you and them; you'll start conversations among community members about the issues, and the stories, that matter.

We've seen it so many times before at Bookclubs: reading together makes relationships prosper, deepen, and grow.
